Boston, MA 02109-3912

SUBJECT: Additional Areas of Contamination (AOCs) designated for PFAS Remedial Investigation (RI) at former Fort Devens Army Installation

Reference: Army Letter to USEPA, January 17, 2018, subject: New AOCs identified in Draft SI for PFAS at former Fort Devens Army Installation

Dear Ms. Keating:

In accordance with the Devens Federal Facility Agreement (FFA) Paragraph 6.5, the Army proposes that a new AOC 76 – Devens Fire Station, be added as an additional site to be investigated pursuant to the FFA Section VI. This site was investigated pursuant to the Draft Site Inspection (SI) Report Addendum for PFAS at AOC 76.

In addition, the following existing Devens AOCs identified in Appendix B (Results from Sampling of Long-Term Monitoring Wells) of the aforementioned draft SI Report Addendum, will be included in the RI for PFAS.

- AOC 43A - Former POL Storage Area
- AOC 43G – Historic Gas Station Site
- AOC 43J - Historic Gas Station Site
- AOC 57 - Former Building 3713 Fuel Oil Spill

If you have any questions please do not hesitate to contact me at (978) 796-2205.

Sincerely,

Robert J Simeone
BRAC Environmental Coordinator
